WITH SIR WILFRID LAURIER, PREMIER OF CANADA, AT SIMCOE, ONTARIO

LLOYD HARRIS TURNED DOWN BY BRANTFORD

Liberal Convention Turns Down Reciprocity and Names T. H. Peston — Reciprocity Gaining Ground Each Day.

Brantford, Ont., Aug. 20.—The second week of the campaign closed with the Liberals still gaining ground. The evidence was now overwhelming that the rural sections and the working classes are practically in support of reciprocity, while manufacturers, on the other hand, are coming forward to get in line. At Saturday's convention and meetings in Ontario, no less than twelve anti-reciprocity clubs came out in support of the agreement. Evidence multiplied that the anti-reciprocity campaign of the interests is getting to pieces in Ontario. The Globe published on Saturday a fac-simile of a letter from Sir Wilfrid Laurier, minister of finance, to the premier and chairman of the Conservative campaign, to the effect that Arthur Hawkes will write articles for the papers which are to be signed "John V. Dornan." The Globe severely condemns the "bribe" which insults British intelligence by trying to "take the British lion, and characterizes John Francis Cochrane's article in the plot as "deceitful and without excuse."

Alliance Between Borden and Bourassa.

Addressing a Toronto meeting of Liberal friends, Francis Cochrane said a bargain has been made, between Borden and Bourassa, in which the Toronto News and Le Devoir are to be used as co-operating newspapers. These papers are to play both ways against the interests and speakers are warned in Ontario to be very wary of the alliance. Mr. Weldon challenged the parties concerned to meet him, but so far neither Borden nor the News has done so.

The Brantford Liberal convention declined to accept the candidature of Lloyd Harris, one of the Liberal leaders on reciprocity, and made T. H. Peston their candidate. In Wellington the Liberals are now pressing W. Dornan to abandon his anti-reciprocity position. If he does so he will be the candidate. Reciprocity in the Wellington front growing stronger and the pressure are increasing on a reciprocity candidate. The anti-reciprocity interest are in Quebec are not so strong as in Ontario, but are generally responsible for the reciprocity agreement. The Conservatives nominated P. H. Mack in contest Mr. Piddington met. Mack is a stock broker, capitalist and one for a man of his years. In all the made to defeat Mr. Piddington. Nova Scotia Liberals laugh at the idea and say the minister will increase his popularity by his nomination.

Sir Wilfrid's Tour of Quebec.

Sir Wilfrid Laurier continues his triumphal tour through Quebec, the premier being accorded the most remarkable tribute of his career. From his native province, and the eastern Liberals everywhere are jubilant over the people who are playing both ways against the interests and speakers are warned in Ontario to be very wary of the alliance. Mr. Weldon challenged the parties concerned to meet him, but so far neither Borden nor the News has done so.

Nationalists Are Silent.

Quebec, Aug. 20.—There is a significant silence in the Nationalist camp there. Since the beginning of the week nothing of importance has happened in the ranks of the usually turbulent Quebecers and one is forced to ask the reason why. Late last week Sir Wilfrid Laurier left Quebec for his tour of the province. The question they are asking now is whether the premier will make any more speeches on the subject of the tariff. As has been said before the Nationalists are silent on this subject since the week of the election. The silence is a force Sir Wilfrid into devising some of his time to a refutation of their arguments on it. If he does so they contend that it would be an admission that the party is still a very live force.

To Speak Again Tomorrow.

They are crowding out of the province, and claim that it is owing to the opposition they have created. Whether or not this is the case Sir Wilfrid is to speak again tomorrow. He is to speak at the meeting of the Ontario Conservative in St. Catharines. The question they are asking now is whether the premier will make any more speeches on the subject of the tariff. As has been said before the Nationalists are silent on this subject since the week of the election. The silence is a force Sir Wilfrid into devising some of his time to a refutation of their arguments on it. If he does so they contend that it would be an admission that the party is still a very live force.

STORM COVERED WIDE AREA IN THE PRAIRIE PROVINCES

Hail, Wind and Rain Do Considerable Damage to Crops.

Rain Only Fell in This District

Cyclone Swept North Dakota—Hail at Calgary.

In comparison with other districts throughout the Prairie Provinces the Edmonton district was peculiarly fortunate in escaping damage to outstanding crops by the storm of Saturday and Sunday. In this section of the country the storm was confined to a heavy rainfall. In the southern portion of Alberta and in Saskatchewan and Manitoba, hail and wind did very extensive damage. The telegraphic despatches today show that the storm was the most severe in that area and over a very wide area. The electrical storm had the effect of putting out of commission a large number of wires of the telegraph companies.

Winnipeg, Man., Aug. 20.—An accurate estimate of the damage wrought by yesterday's rain, hail and windstorm is as yet impossible. From all points of Manitoba and Saskatchewan reports of damage in varying degrees are being received. Where the storm was felt the most optimistic report points to a delay of from two to six days in harvesting operations. Immediately around Winnipeg hail did not fall but some Saskatchewan points were unfortunate. North Dakota experienced a variable cyclone which destroyed crops and buildings, as well as claiming several lives.

Barns Blown Down.

Chicago, Ill., Aug. 20.—Robert Johnson had a large barn blown down by the wind at Grand Forks, N.D., and at Chatter, on the G.T.P. A barn valued at \$100, the property of David Griffin, was struck and knocked down north of Calgary, and many other "Edwards" barns were partially destroyed.

Prince Albert, Sask., Aug. 21.—This district was visited by severe storms on Saturday night and Sunday afternoon and last night. The wind of the Sunday storm blew an immense rain and the rain poured down for hours. No damage is reported, except in a few cases. The weather today is hot and calm.

Harvesting Operations Set Back.

Yorkton, Sask., Aug. 21.—As a result of yesterday's storm, the harvesting operations have been postponed several days.

Antler, N.D., Aug. 21.—A child is dead, several children are injured and thousands of dollars worth of property destroyed, as the result of a hail storm, which fell on Sunday night and the day tonight.

Reciprocity's Benefits to Western Canada—Higher Prices on the U. S. Side of Line.

Congressman, Lenroot, Wisconsin, April 27: "The prices of agricultural products are much higher in United States than in Canada. According to the report of the Tariff Board, the average price of spring wheat received by the farmer in Canada in 1910 was 73.3 cents per bushel, while our farmers received 88.2 cents per bushel—or 15 cents per bushel more than the Canadian farmer received. According to the report of the Tariff Board, for his barley the Canadian farmer received 42.4 cents, while our farmers averaged 57.3 cents per bushel, or 14.9 cents more per bushel than the Canadian farmer. For his flax the Canadian farmer received \$2.67 per bushel, while our farmers received \$3.30 per bushel, or 21 cents per bushel more than the Canadian farmer."

AGRICULTURAL EDITORS VISIT EDMONTON TODAY

HERBERT VANDERHOFF'S PARTY BEING ENTERTAINED IN THE CITY—PROF. WILLIS OF MINNEAPOLIS, PAYING TRIBUTE TO COUNTRY—EACH RIVER BOAT FORTIFIED

Edmonton is entertaining today a party of distinguished agricultural editors from the United States, who are making a tour of the Canadian West with Herbert Vanderhoff, editor of the Canada West Monthly. The party arrived in Edmonton at 6:30 this morning, had breakfast in their private car and were met by a delegation from the Board of Trade at the station. A special street car was used to take the visitors about the city, and at noon they were entertained at luncheon at the Edmonton Club. A trip by automobile through the Clover bar country had been planned for this afternoon, but had to be abandoned owing to the rough condition of the roads following yesterday's heavy rain.

Personal of Party.

Included in the party are many distinguished men, among them being Professor H. F. Willis, Champlain, Ontario, Illinois, director of Agriculture, University of Illinois; Professor G. W. Willis, Minneapolis, Minn., editor of Northwest Farmer; an Orange-Jude publication; Ernest writer; H. C. Johnson, N.Y., assistant editor of Farm Journal; Wm. J. Shanks, Chicago, Ill., chief editorial writer of Hearst's Examiner; Sam McKelvey, Minneapolis, president and editor of Nebraska Farmer; Walter N. Burns, Chicago, Ill., editor of the American Farmer; Howard N. Whitney, Des Moines, Iowa, editor of Register and Leader; Victor Bohlen, Chicago, Ill., manager of the American Farmer; and Mr. J. H. Meritt, Vanderhoff, editor of the Canadian Farmer.

His, Crowder, of the C.N.R. publishing department, Toronto; O. H. G. West, of the G.T.P.; Winnipeg; and J. H. Dornan, of the Globe. The party were met this morning by a delegation headed by J. H. Dornan, of the Globe, and including Alderman J. H. Dornan, of the Globe, and J. H. Dornan, of the Globe.

Visit Trip for Some.

Herbert Vanderhoff and his party are visiting Canada for the first time, and are making a tour of the Canadian West through the Canadian West.

All have been wonderfully impressed by the great fields of grain of all kinds around which they have travelled coming west to Edmonton, C.N.R. and C.P.R.

"The trip," said Herbert Vanderhoff, "is the most successful I have ever conducted through Western

OFFICIAL ANNOUNCEMENT OF LETTING OF G. T. P. CONTRACT

PRESIDENT HAYS AND CHAIRMAN SMITHERS, OF GRAND TRUNK RAILWAY, EN ROUTE TO EDMONTON — GLENN, WELCH AND STEVENS GET CONTRACT FOR LAST SECTION OF ROAD

Winnipeg, Aug. 21.—C. A. Hays, president of the Grand Trunk Pacific Railway, and Alfred W. Smithers, chairman of the board of directors, left this morning for the west, and will go to the end of the Grand Trunk Pacific to Edmonton and then to the summit of the mountains. Hearing to Edmonton, they will go to the end of the Grand Trunk Pacific to Edmonton and then to the summit of the mountains.

President Hays had little to say regarding the most important matter before him at the present time, namely, the awarding of the contract for the last 200 miles of the line.

It is known that this was the real item of business which interested the visitors on their arrival here. It was believed to be inevitable that the work would be awarded to the firm of F. W. Smithers, who had been in the city for several days.

"I don't know whether people will believe what I have to tell them or not," said Professor Willis, who was in the city for several days.

"I am not sure if it is a good idea to let the contract for the last 200 miles of the line to the firm of F. W. Smithers, who has been in the city for several days."

NEWS OF THE DISTRICT.

CAMROSE.

Bulletin News Service.

Railway news in the Camrose district, and continuing to be the district of interest. A report was circulated this week to the effect that the C. N. R. railway from Vegreville to Hester would be taken over by the operating department by the 1st of September and that a regular service would be given from that date. This seems to be borne out by the fact that a special train, consisting of a party of 17, N. R. officials passed through Camrose last week on a tour of inspection to the end of the line. It is stated that this will be the last inspection necessary as the construction department has been very active during the past few weeks, securing the road bed for traffic. Work on the Camrose to Strathcona line of the C. N. R. has been progressing very favorably and the contractors expect to reach Strathcona by September 15th. At present the nearest camp to Strathcona is within six miles of that city. That the contractors are satisfied that the work will be finished by the above date would seem to be verified by the fact that one of the sub-contractors has gone south this week in search of more work for the fall.

On the M. & N. R. line 2,000 feet of steel are being laid this week on the spur to the new freight sheds. The completion of this spur will give the C. P. R. unsurpassed service to local shippers in the handling of freight.

The agent for the trap shooting of the past season and a preliminary to the opening of the season for duck shooting was the tin club handicaps held in Camrose last week. The use of the trap was very keenly contested and the winners are now well supplied with hunting paraphernalia for duck shooting.

For various reasons, among which are the desirability of having sewer and water connections completed before the laying of sidewalks and the present excessive cost of sand and gravel, the town council has decided to defer the laying of cement sidewalks in Camrose until next spring. There is every assurance that the water-works will be completed by this fall.

Chas. Dugan, the local shipper for Edmonton and Calgary packing houses shipped a carload of cattle to Edmonton on the G.T.P. line this week. This is the first shipment that has been made since the erection of the new stock yards.

For the first time in the history of Camrose the board of license commissioners for the province of Alberta met here last week. The application of R. J. Nasland for a license for the Alberta hotel at Hester was considered and recommended subject to final inspection by Inspector Parker.

During the last week a shipment of nine carloads of Round Hill coal came into Camrose for reshipment to points on the C. P. R. between Cal-

gary and Shaktown.

Gov. Hopenstein, of Camrose, has appointed deputy for the Madron Woodmen of America. Mr. Hopenstein's territory extends from boundary to boundary and from Ponoka to the extreme north of Alberta. He will make his headquarters at Camrose as his territory may be served very conveniently from this point.

The difficulty in securing accommodation for the students who will be in attendance at the Norwegian Lutheran college this fall, will probably be solved by the renting of the leather shoe boarding house until such time as the college building is completed. It is now fully expected that the college will open in October with an enrollment of over one hundred.

The opening date of the duck shooting as a civic holiday in Camrose. Nimrod are taking active steps to secure a license which is required by the above date this year.

A most successful farmers' picnic was held last week at Meeting Creek on the C. N. R. This town has its support from a well settled agricultural country and has sufficient business to warrant the erection of a bank and elevator at an early date. One farmer will harvest 1900 bushels of grain off his farm this year. The combined harvest of the district will bring the grain yield this year up to many thousand bushels.

MACLENN.

Bulletin News Service.

A heavy storm passed around MacleNN Sunday evening and respects of damage by hail have been received.

The storm seemed to divide well of town and for a distance of six or eight miles north and south there was no hail. Only a heavy wind and rain. Nearly all of those struck with the hail were injured.

The crops never looked better than they do this year.

Everybody is cutting hay around here now. The heavy rains caused a heavy crop of hay this year.

The Methodist parsonage was opened Wednesday evening by a social.

The occupation for the first half year now complete and tenders are called for the erection of a fire hall. This will add to MacleNN's public buildings and be an ornament to the town.

A number of MacleNN citizens went to Edmonton to attend the exhibition.

RECIPROCITY OR RESTRICTION?

Hon. G. E. Foster, Conservative member for North Toronto, speaking in the House of Commons (Revised Hansard, p. 1478):

"Well, Sir, we were to have many other things. We were to have a market open for us everywhere. What markets have they opened to us? Some markets have been closed to us, in others the rates have been raised upon us. No foreign market in the world has yet been opened to us by this aggregation of all the talents in the thirteen years during which they have been in power. Some of our own sisters, the sub-nations of the Empire, have granted us, as we have granted them, certain preferential privileges; but outside of that, there is not a nation in the wide world, outside of treaties which had been made before, into which any ingress has been given by these gentlemen for the products of our country."

Every Conservative should vote for reciprocity.

A BORDENITE TAKES THE FIELD.

A few days ago the Bulletin alluded to the anxious energy which Mr. M. S. McCarthy, lately M.P. for the constituency of Calgary, has been displaying in the effort to bring about the defeat of the Minister of the Interior in Edmonton. It is due that worthy gentleman to now say that his efforts have been successful. No allusion is here intended to the nomination made by the bogus "Liberal Convention" on Wednesday. What Mr. McCarthy had to do with that incident will perhaps appear at a later stage of the game. The present reference is to the appearance of a gentleman claiming to be a Conservative and appealing for the votes of Conservative electors on that pretense.

Now it may be a thankless business, but it clearly is the duty of some one to point out that there is a difference between a Conservative and a Bordenite; and it is tolerably clear that this difference must be pointed out by the Liberals, for the very obvious reason that the interest of the Bordenites consists in persuading the Conservative voters that the terms mean one and the same thing. That is not so. From the testimony of resolutions introduced into Parliament by Conservative Premiers; of statutes put upon the Dominion statute books by Conservative Governments; of speeches made in the House of Commons by Conservatives in times recent and remote; of the last address ever issued to the electors of Canada by the greatest chieftain the Conservative party ever saw; by these incontestable documents it is thoroughly established that the Conservative party in Canada has stood consistently for reciprocity ever since there has been a Conservative party. Never in the annals of Canadian history, down to last January, did a leader of the Conservative party take his stand and array his forces in opposition to the policy of reciprocity in natural products with the United States. On the contrary, never before was there a leader of that party who did not declare himself and array his following in definite and explicit support of such reciprocity. For the sake of clearness and of candor, for the sake of a great party and the tradition for which it has stood, it is desirable that the Conservative party be freed from the imputation of having turned about-face on this question, and that those who in obedience to Mr. Borden have decided to fight against what the party has always fought for should not be allowed to do so under the banner of the party whose trade policy

they have abandoned.

That the gentleman selected to appeal for the suffrages of the Conservative voters in this riding is a Bordenite and not a Conservative he early made apparent in an address setting forth the why and the wherefore of his candidature. In the preamble he states it to be his modest ambition to run for the "constituency of the city of Edmonton," thus apparently eliminating the farmers of the riding from the calculation. However, as the farmers are in the constituency and will have votes in the election, the address must be taken as open to consideration by them as well as by the voters whose fortune it happens to be to reside within the city boundaries. The Major opens his manifesto with the swinging declaration that reciprocity will confer no benefit upon the people of this country. That is positive, definite, comprehensive; it forestalls argument, and forbids discussion; reciprocity is of no use to the people of this country—and that is the end of it. The fat has gone forth; the jig is up. But that is not the end of it either, for the Major proceeds: reciprocity is a reversal of the policy under which we have become prosperous. That of course is a high and well-deserved compliment to the only policy under which living Canadians have known what prosperity meant—the policy of the Laurier Government; but the strength of it as an argument against reciprocity is somewhat lessened by the fact that the Government which introduced this prosperity-breeding policy is also the Government which proposes reciprocity, and that if the Government guessed so correctly in the former instance it may well be that they and not the Major are correct in the present case. The Major is troubled, too, about the business the railways may lose should our grain and cattle go south instead of over the long haul to the Atlantic seaboard—a pang of sympathy in which he may or may not be joined by farmers who have been paying freight on the long haul until many of them have thought: the only way to keep out of bankruptcy was to get out of the cattle business. The exchange of trade, too, seems to the Major likely to tend to the "knitting together" of the Provinces of the Dominion with the adjoining States. Precisely what may be meant by this is a secret between the Major and the Gods. The "great American food trusts" also bother the Major. He thinks they will have the agricultural interests of this country at their mercy and disposal. What, we should like to know, about the Great Canadian Food Trusts, who just now are pouring some of the money they have taken from the farmer into the campaign to prevent the "great American food trusts" getting into competition with them for the farmer's products? What are these to be doing while the "Great American Food Trusts" are taking our agricultural interests under their wings? But these are only preliminary woes. The real cause of his grievance the Major discloses modestly in the middle of his address; he thinks reciprocity would tend to Canada's "absorption by the United States." That is the milk in the cocoanut. That's what "gets" the Major. He might as well have blurted it out at the beginning, for we could see that was what he was coming to. Reciprocity, in the Major's eye, is annexation. Canadians, poor weak creatures that they are, cannot trade with their neighbors without losing their veneration for the good old flag, their appreciation for institutions cradled in free trade Britain, their attachment to the King and throne; they are a race of weaklings or of traitors, who either cherish a hidden wish to be joined to the American union, or will be led into that disposition by the infection of the Yankee dollars sent over to pay for Canadian products; a mercenary breed whose "self-interest" in the price of pigs is incompatible with patriotism. Really, for a valiant Canadian warrior who went into the business in the ranks, and through his own merit and the gross partisanship of the Laurier Government has been elevated to the head of the procession, the Major goes into battle with a strange cry. He is a Bordenite, not a Conservative.

THE FINANCIAL AND
COMMERCIAL MARKETS

EDMONTON MARKETS

Edmonton, Aug. 21.—Butter has advanced since last week up with a jerk, and has probably reached somewhat appreciable than normal price. With retailers still at about three cents above the price on the flour street market was \$1 per bushel yesterday, while some were disposed of at 60c. Continued frequent arrivals are feasible.

The produce market is reported with very little change. Prices of Creamery butter has advanced from 25c to 26c, dairy butter has advanced a slight rate, eggs even to getting up to 25c. The price of wheat has changed has been slight in price quotations, but the price of flour has continued to advance to 25c.

In spite of frequent receipts of new wheat, there has been no marked reduction in price. The hay still shows good proportion of blacked heads and the owner always has to stand the loss in sale of something that it is better than it looks. The depreciation in value to such cases is from one dollar up.
